Dt. 09/04/2023

Dear Sir,

Sahyadri Super Speciality Hospital management appreciates your efforts with precious time and energy in helping conduct of **medical health check up camp** by Sahyadri Super Speciality Hospital Hadapsar, Pune on **07/04/2023** in your premises.

Your involvement along with your committed lecturers and decent students in arranging things for the camp is laudable. The active participation of volunteers along with their mentor added more colors for this event. All your team created an atmosphere of social work for the needy patients with their wholehearted support.

You have been good enough to provide campus, bus facility, reception, felicitation, publicity and hospitality at every level for which the management of Sahyadri Hospital is thankful.

We put on record our deep appreciation for your performance as a team and expect you to be a role model for other organization in conducting community health programs.

With regards,

Authorized Signatory.

Continuous Activity each year

Activity Name: Soil testing

Activity scope: To analyse the soil samples and helping farmers and sugar mills in fertilizer management

Activity details:

Soil Science section of agricultural sciences and Technology Division of VSI established in 1986. The section has achieved significant success in research activities like site specific nutrient management, soil test crop response targeted yield approach, soil fertility management, GPS-GIS based soil fertility mapping, sulphur and silicon nutrition and formulation of agro-products. The section is engaged in development of organic sugarcane package, management of salt affected soil, use of humic acid and nano formulation. This section also deals with training & extension services to the sugar mills on sugarcane development at micro level and disseminates the information on soil and fertilizer management practices to increase the average sugarcane productivity and sugar recovery. Efforts are taken to promote application of fertilizers through drip irrigation and foliar application in sugarcane for increasing fertilizer use efficiency keeping this in view the section has formulated the fertilizers like Multi-Micro-Nutrient, Multi-Macro-Nutrient Liquid Fertilizers for foliar application, VSI-Microsol for fertigation and soil application which are available to the farmers through sugar mills and also in the Institute.
