Dear Sir,

Please find attached herewith Tax Invoice for Platinum Sponsorship of 3<sup>rd</sup> international Conference & Exhibition on "Sustainability: Challenges & Opportunities in Global Sugar Industries" at VSI in January 2024.

Regards,

Dr. K. S. Konde  
Head, Prof. & Technical Adviser  
Dept. of Alcohol Technology & Biofuels

Dear Ravindra,

Find herewith ICUMSA method to measure inverted sugar with HPLC

Four our application, calibration with Saccharose will be needed, on top of fructose and glucose.

Hopping that this will answer Dr Konde question.

Pierre

Thank you Dr Konde.

Regarding "temperature range 90 to 120°C and pH range 4 to 6, and estimate % sucrose inversion".

I have two comments:

- no need to go at temperature above atmospheric pressure ( 100 °C + about 10 °C boiling point élévation)
- the purpose is more about measuring inversion rate ( % inversion per minutes).

We also discussed about the proposal that you are going to submit soon.

Have a good day

erre

Dear Pierre,

Greetings of the day!

I had a call from Dr. Konde. To finalise his professional fees, he is expecting the alternate method of carrying out the analysis using the HPLC. With the current procedure he informed, he is getting the overlap in some of the readings. Request you to please revert to hm at the earliest possible.

With sincere regards,

**Ravindra Jayawant**

Dear Dr. Konde,

Greetings of the day!

It has been since long we had spoken with each other. This was due to some personal reason (I lost my father recently) and due to some professional tasks. I am sure that this email of mine will find you in pink of your health. I am writing this email for very important task, which our company M/s. Interistech, M/s. Interis India and M/s. De Smet Engineers and Contractors propose to carryout at VSI Pune. I am communicating the on your Gmail address, please revert to me with your VSI email address.

The process on the sugarcane juice has been developed internally by De Smet, we want to conduct the validation tests. There will be test protocol shared by our process experts from Belgium. To prevent the possible dilution of the process, we will have to sign NDA.

We request you to please revert to me with your availability and suitability to participate in the "Process Engineering Validation Test". Our process expert is planning to reach India on the 30<sup>th</sup> July and meet you immediately on 31<sup>st</sup> July based on your confirmation.

*With sincere regards,***Ravindra Jayawant**

### Minutes of Meeting

Online Meeting was held on 12<sup>th</sup> December 2023 for the preliminary discussion of research project based on study of sugar syrup storage

#### **Present**

#### ***From Interis and DSEC***

Mr. Pierre Noel

Mr. Ravindra Jaywant

#### ***From VSI***

Dr. K.S. Konde, Head, Prof. and Technical Adviser, Dept. of Alcohol Tech. and Biofuels

Dr. S. S. Patil, Scientist, Dept. of Alcohol Tech. and Biofuels

Mrs. S. A. Patil, Scientist, Dept. of Alcohol Tech. and Biofuels

The following points were discussed during the meeting:

- Dr. Konde has started meeting with presentation based on preliminary work carried out at VSI, Pune
- Mr. Pierre Noel has asked about the reaction time required and asked the possibility in reduction time for inversion
- Mr. Noel has asked to perform experiments with a concentrated syrup range at 100°C and pH range 4, and estimate % sucrose inversion.
- Mr. Noel has asked to perform the inversion experiments with mixing the reaction mixture.
- Mr. Ravindra Jaywant asked to visit the VSI and perform the experiment collaboratively.

Date: 06/10/2023

## Minutes of Meeting

Online Meeting was held on 06<sup>th</sup> October 2023 for the preliminary discussion of research project based on study of sugar syrup storage

### **Present**

#### ***From Interis and DSEC***

Mr. Pierre Noel

Mr. Pierre Averseng

#### ***From VSI***

Dr. K.S. Konde, Head, Prof. and Technical Adviser, Dept. of Alcohol Tech. and Biofuels

Dr. S. S. Patil, Scientist, Dept. of Alcohol Tech. and Biofuels

Mrs. S. A. Patil, Scientist, Dept. of Alcohol Tech. and Biofuels

Following points were discussed during meeting:

- Dr. Konde has started meeting with presentation based on preliminary work carried out at VSI, Pune
- Dr. Konde has asked about alternative method for HPLC analysis used at DSEC and Mr. Noel has assured to provide the same after communication with his colleagues.
- Mr. Noel has asked to perform experiments with temperature range 90 to 120°C and pH range 4 to 6, and estimate % sucrose inversion.
- Dr. Konde has informed about estimation of water activity by available hygrometer. Mr. Noel has recommended to check the calibration of hygrometer to close the gap between theoretical and experimental value of ERH. Dr. Konde has assured that VSI will check the different make hygrometers.
- Mr. Noel has recommended to perform experiments by using sugar syrup. Dr. Konde has told that the syrup will be available after start of sugarcane crushing season 2023-24.
