

Distilleries Statistics

Maharashtra State (India)

Summary of Technical Performance of Distilleries Affiliated to VSI Member in Maharashtra State

Sr. No.	Particulars	Financial year (Apr/Mar)	
		2020-21	2021-22
1	Production Capacity (Million litres/ 300 days)	1167.00	1322.70
2	Number of distilleries reported performance	83	87
3	Average net working days	137	140
4	C-Molasses distilled (million tons)	1.057	0.709
5	BH Molasses distilled (million tons)	0.696	1.488
6	Cane juice/syrup/sugar distilled (million tons)	1.010	1.642
7	Alcohol produced from C-Molasses (million litres)	284.519	198.701
8	Alcohol produced from BH Molasses (million litres)	220.085	455.955
9	Alcohol produced from cane juice/syrup/sugar (million litres)	78.886	128.557
10	Total Alcohol produced (million litres)	583.490	783.213
11	Fuel Ethanol produced from C-Molasses (million litres)	37.542	25.796
12	Fuel Ethanol from BH Molasses (million litres)	179.158	326.252
13	Fuel Ethanol from cane juice/syrup/sugar (million litres)	72.632	115.994
14	Total Fuel Ethanol produced (million litres)	289.332	468.042
15	Average Recovery of Alcohol for C- Molasses (%)	269.14	280.04
16	Average Recovery of Alcohol for BH Molasses (%)	316.38	306.23
17	Average Recovery of Alcohol for cane juice (%)	76.26	77.59
18	Average Fermentation Efficiency %	89.70	89.99
19	Average Distillation Efficiency %	98.46	98.52
20	Average total reducing sugars in Molasses %	51.89	52.81
21	Average fermentable sugars in Molasses %	47.56	48.65
